

September 2020 Ad-Hoc Remote Communities Committee

The ad Hoc Remote Communities Committee met on 9/21. We have been busy creating and populating Google forms to be used in identifying and reaching remote alcoholics in Area 09. These will be distributed to both individuals in need and to each District in our Area.

In the longer term, we are looking to create a program called the Remote Communities Mail Train that will provide alcoholics belonging to remote Communities with cards, letters and AA care packages.

Irene, from the GSO Accessibilities Desk is supporting our efforts and wishes to exchange information and ideas. It is our plan to meet with her via Zoom after the District 18 Standing Committees event on October third.

That's it in a nutshell. I'm probably forgetting something but know that we are working hard!

Best,
Maryka d.
